

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health. Because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

COUNCIL PROCEEDINGS

Reports of Treasurer and Secretary
Commissioners of Public Works.

Council Chamber.
City of Orangeburg, S. C.,
November 1, 1907.

Proceedings of a special meeting of City Council held this day. Present: Hon. J. W. H. Dukes, Mayor, and Aldermen Lathrop, Bowman, Smith, Smoak, Weeks and Wertz.

The mayor stated that the object of the meeting was to consider the resignation of Mr. Edward Hawes, Jr., as City plumbing inspector which he had tendered.

The letter of Mr. Hawes was then read; and being called upon he gave an explanation of the resignation. Mr. B. W. Williams being present asked to be permitted to make a statement which request was granted. Mr. P. W. Cantwell was also permitted to make a statement.

On motion the Council went into executive session and considered the whole matter, after which the following resolution was adopted: That the resignation of Mr. Edward Hawes, Jr., as City plumbing inspector be accepted, and that the City Council be authorized to select a new plumbing inspector.

Further action on the resignation of Mr. Hawes was postponed.

The Council passed upon and ordered paid the following sewer construction estimates for the month of October, which had been approved and certified by the sewerage commission: (Berghaus & Moffitt, Contrs.) Estimate No. 7 on contract No. 1, for \$1139.59, Estimate No. 4 on contract No. 2, for \$3450.18, and Estimate No. 3 on contract No. 3, for \$802.27, total \$5392.04. Council also approved and ordered paid from the special sewer funds the sum of \$153.00 the amount advanced by the City from the general funds for the month of October, same having been approved and certified by the sewerage commission.

It being the desire to have the sewer estimates paid as promptly as possible at the close of the month, the following resolution was offered and adopted by the Council: In view of the change of the date for the regular meeting of City Council which will cause delay in approval and payment of the sewer estimates, which under contract are to be paid not later than the 10th of the month, the following resolution was offered, resolved, that hereinafter the City Treasurer pay such estimates on the approval of the finance committee acting on behalf of the Council, such action, however, to be reported to the Council at its meeting following the payment of the estimates, for approval and confirmation by that body.

The Council then adjourned.

L. H. Wannamaker,
City Clerk and Treasurer.

Council Chamber.
City of Orangeburg, S. C.,
December 4, 1907.

Proceedings of a special meeting of City Council held this day. Present: Hon. J. W. H. Dukes, Mayor, and Aldermen Bowman, Smith, Smoak, Weeks and Wertz. Absent Alderman Lathrop. (Out of City).

The mayor stated that the object of the meeting was to receive and consider reports from the committee on water and lights in reference to the matter of plumbing and amendments to the proposed plumbing code, and other proposed ordinances, and the consideration of such other business as the council may deem proper.

The petition of sundry citizens asking for the laying of a sewer main from Amelia street up Academy street to Ellis avenue; thence to Treadwell street making connection on said Treadwell street with present mains, was read, as was also statements and plans submitted by the city engineer showing probable cost to be about \$3470.00. The matter was considered and the following motion was made and carried: That the prayer of the petitioners be granted; that the work be done under the supervision of the council and the city engineer; that the city engineer prepare a list of the materials needed and that they be ordered at once.

The Sewerage Commission having called the attention of the Council to the danger to the sewer mains on the A. C. L. R. R., right-of-way from the use of a rifle range established near-by by the Tillman Volunteers; it was on motion ordered that the clerk notify the said volunteers of the danger and request that the range be removed beyond the city limits as section 90 of the Revised Ordinances forbids the discharging of fire arms within the city limits.

The proposed ordinance entitled "A revised ordinance relating to the Sewerage and Water Works systems and Plumbing of the City of Orangeburg, S. C.," was submitted by the committee on Water Light, and received its first and second readings and was postponed for its third readings with the privileges of amendments to some subsequent meeting of Council.

The letter or report from the committee on water and lights and plumbing calling attention to defective sanitary and water plumbing done by Cantwell and Williams at the apartment of Prof. Wilkerson at the State colored college and at the residence of G. V. Zeigler, 283 East Russell street, was read, and the clerk instructed to notify the above property owners to discontinue work on said sewer and water plumbing until a permit therefor is obtained; and to have all existing defects therein remedied at once. Further action was on motion postponed.

The following sewer construction estimates for the month of November, 1907, having been approved by the sewerage commission are submitted to council and approved by that body and ordered paid from the special sewer funds:

Estimate No. 1 on contract No. 1, for \$1794.84, estimate No. 5 on contract No. 2, for \$1161.26, and estimate No. 4 on contract No. 3 for \$1442.41, total \$4398.51. Also the expense account for the month of November of the sewerage commission advanced by the city from the general funds, having been approved by the commission is ordered refunded to the City funds from the special sewer funds amounting to \$185.50.

The Council was then on motion adjourned.

L. H. Wannamaker,
City Clerk and Treasurer.

SO DECEPTIVE.

Many Orangeburg People Fail to

Realize the Seriousness.

Backache is so deceptive.

It comes and it goes—keeps you

guessing.

Learn the cause—then cure it.

Nine times out of ten it comes

from the kidneys.

That's why Doan's Kidney Pills

cure it.

Cure every kidney ill from back-

ache to diabetes.

Here's a Orangeburg case to prove

it:

A. S. Chaney, living in Orange-

burg, S. C., says: "My back and

kidney troubled me for a number

of years. A dull heavy pain exist-

ed in the small of my back, taking

all ambition out of me and prevent-

ing me from getting any rest or

sleep at night. At times it was so

severe as to make me lay off from

work for days at a time. I consult-

ed a doctor and he told me after a

thorough examination that I had

diabetes. I could not well afford the

extensive treatment he thought nec-

essary and I tried the best recom-

mended remedies I knew of, but not

receiving any benefit from them I

was discouraged. Some one told me

about Doan's Kidney Pills and I pro-

ceeded to buy a box at the J. G. Wannamaker

Drug Store. I did not expect them

to do me any more good than any

other remedies I had tried and could

hardly believe my own feel-

ings when my back stopped

aching. In a short time the kidney

secretions became normal and regu-

lar. I rested well at nights and my

work became a pleasure to me. For

what Doan's Kidney Pills did for me

I can and will recommend them to

others.

For sale by all dealers. Price 50c.

Foster-Milburn Co., Buffalo, New

York, sole agent for United States.

Remember the name—Doan's—

and take no other.

Our little boy ate salt mackerel for

breakfast the first time the other mor-

ning. "Where does these fish come

from, the lake?" he asked after the

first bite. "No, from the ocean," an-

swered his father. "Gee!" said Benny.

"I don't wonder the ocean's salt."

Cleveland Leader.

If you haven't the time to exercise

regularly, Doan's Regulators will

prevent constipation. They induce a

mild, healthful action of the bowels

without griping. Ask your druggist

for them. 25c.

annual installment interest on the sewer

bonds, amounting to \$1,125.00 will

become due before the next meeting of

the council, and there has been no special

provision for its payment, I respectfully

request to be given authority to meet

the same from the funds now in the

treasury.

For a number of years the City Treas-

urer has been authorized and directed

to redeem with the funds raised for that

purpose, (annually) one of the outstand-

ing Railroad bonds, amounting to \$500.00.

I respectfully request that such author-

ity be again given me. The interest

period is January 1, and the redemption
